

I am against expanding Low Power FM service. K-LOVE 106.7 is the only station to which I listen. It blesses me in so many ways. I value this station and I am very concerned about the potential of losing it if LPFM is given a priority over FM translator service. There would be a tremendous void in family friendly programming if K-Love were displaced. It is especially unique in that K-Love is commercial free. We need this positive impact on our communities! Thank you!
